All teams in column B were reviewed by the Team Classification Review Committee and rosters were reviewed.

Classificaiton in column H were made without rosters.

Any classification that has a "+" after it denotes the teams likely desire to play up one class due to location of tournament.

If these teams win in the upper class, their pitchers and the team will become that higher class next year.

Classifications that have an "N" before it indicate "non-participating" in state finals.

Teams listed in RED letters are restricted in 2011 based on winning two or more games in the 2010 state finals.

Teams listed in RED letters and have their classification in RED are move-up teams in 2011 based on their finish in 2010.
